NEW YORK MARKET ACTIVE; PRICES OFF

Steel and Copper Shares Soft. Aje General List Reacts Frac- Ale tionally-Rubber Strong.

WEW YORK, Nov. 21.-There was Am active trading on today's early stock Am market, but business was mainly on the selling side. Prices in the General Industrial and Railroad list Am shaded off fractionally.

Steel and Copper issues were no ex- Am caption, most of the issues reacting fractionally to 2 points or more, defractionally to 2 points or more, despite the announcement of a sale of Lake Copper at 35 cents a pound, a record price and 1½ cents a pound above the previous record level of last week. There was some profittaking in the copper group, and it may be that the reactions reflected some disappointment over more developments of a confirmatory character with respect to the reported copper merger.

After moving up in the first sales to 125%, U. S. Steel receded to 127 with small fractional recovery later. Gulf States Steel advanced three points, but there was no great demand.

Anaconda lost a point or more as

mand.

Anaconda lost a point or more as did most of the other copper shares. Ralls were neglected and eased off somewhat.

There were a few strong spots in the Industrial list like U. S. Rubber which crossed 66, 3 points up and Texas Company shares which touched a new high price at 239½ and up. Paper and shipping shares were soft, as were Equipment and specialty issues, with a few exceptions.

New York Air Brake gained more than a point. Continental Insurance was in good demand, selling 3½ points up.

Big Colliery in Flames,

Whole Mine Threatened

POTTSVILLE, Pa., Nov. 21.—Otto
Colliery, at Branchdale, one of the Philadelphia and Reading Company's most valuable collieries, is in the grasp of a severe fire, which threatens the entire operation. Prompt measures of precaution may, however, place the flames under control.

The fire had been raging since Saturday afternoon, and four men were overcome by black damp, but all recovered. The fire is 1,200 feet below the surface, and the location makes it dangerous and difficult to fight.

This afternoon the flames began licking up the shaft, whose destruction is imminent. It is possible that the mine will be permanently sealed in order to cut all air from the flames.

NEW YORK, Nov. 21 .- Ruth Ban-NEW YORK, Nov. 21.—Ruth Bancroft Law, new "queen of the air," is going to enter the transcentinental aeroplane contest to be staged under the auspices of the Aéro Club of America next year. Miss Law is enthusiastic over the plan, and considers that the race will make a new epoch in the history of flying,

The daring little aviatrix, who arrived here yesterday from Chicago, after breaking the world's record for flights by women, setting a new American record for cross-country flights by either man or woman, and coming within an ace of equaling the world's cross-country record, is just a little bit disappointed, despite the praise with which she has met on on every side.

"I could have come all the way here without stopping, if conditions had been just a little different," she remarked today. "If Glenn Curtiss had let me have a big battle plane, instead of my little exhibition one, I'm sure I'd have succeeded.

She is planning to attempt the Chicago-New York trip again, however, as well as the transcontinental flight. For the latter a purse of \$20,000 is offered by the Aero Club of America. croft Law, new "queen of the air," is
